## CyberTech Revenue for Q3FY19 was Rs 265 million;

## Up 9% Y-o-Y basis

**Mumbai**, **India** – **4**<sup>th</sup> **February**, **2019**: CyberTech Systems and Software Ltd. (BSE: CYBERTECH), a CMMi Level 3 Next Gen Location Analytics organization announced today its financial results for the **third quarter and nine months FY19** ended on 31<sup>st</sup> December, 2018.

Commenting on the results, Mr. Vish Tadimety, CEO and Founder, CyberTech, stated: "I am pleased to see significant momentum during the quarter. Our topline grew by 9% on a year on year basis and our EBITDA margin was 22%. The growth was mainly driven by growth in our US business which constitutes 94% of revenue.

I am delighted to inform you that we delivered our first ever S/4 HANA Transformation project, on-time and on-budget for a large US manufacturing company. Our proprietory Zero-risk S/4 HANA Transformation Methodology provided our customer a seamless transformation.

We have continued to make significant progress in strengthening our alliances. Additionally our CyberTech team has conducted several Geo-database migration readiness assessment workshops for Indian enterprises this quarter. These workshops were done in partnership with the SAP Database Migration Factory.

We have continue to pay strict attention to cost control and operational efficiencies. We will continue to focus on completing our existing GeoCivic accounts by end of this year. GeoCivic continues to be a powerful product for helping municipalities manage property taxes and we are intending to relaunch GeoCivic through Channel partners in the upcoming year.

Our new US based subsidiary, Spatialitics continues to progress. I am pleased to inform you that product development work continues and we are confident on releasing GeoShield 4.0, Spatialitics Utilities and Spatialitics Health as per plan. Our HIPAA-Compliant Geocoding service and Spatialitics Utilities Apps suite are gaining traction. The HIPAA-Compliant Geocoding service is in the process of developing several Proofs of Concept including one from a large US healthcare system. We are in advanced level of discussion with several of leading Utility players to become our "Lighthouse customers" for our product suite.

We have formed an Industry Advisory Board for Spatialitics with prominent industry leaders from various domains. It is our pleasure that Mr. Mike Armstrong, GM of WaterOne, agreed to be the Chairman of the Industry Advisory Board. His leadership will help us deliver

superior value to regulated industries, such as Utilities, using spatial analytics and establish Industry user groups.

We are confident that the growth momentum and the margin resilience observed in this quarter will continue moving forward and our focus is to add value to our customers driven by our next-gen products and solutions offerings through subscription sales."
