

CyberTech becomes SAP® PartnerEdge® Build Partner for accelerating co-innovation on Spatial Analytics and HANA

Trevese, PA, Dec. 21, 2016 -- CyberTech System and Software, Inc. has announced today that it has joined the SAP® PartnerEdge® program as a Build Partner.

The Build Partner engagement model is designed to provide new levels of engagement for partners that design, develop, and support applications, software, and integrated solutions on market leading platforms from SAP. It provides a broad range of supporting services from a technical and commercial point of view, which also includes an option to go to market using SAP digital properties.

“As a leader in Spatial Analytics and a long term partner of SAP, the PartnerEdge – Build engagement will enable CyberTech to participate in co-innovation with SAP in the areas of geo-enabling business processes and development of industry solutions that leverage SAP’s Geographical Enablement Framework and HANA platform” – says CyberTech’s Chairman and CEO, Vish Tadimety.

CyberTech’s flagship product - CyberServe™ is one of the pioneering products for spatial enablement of SAP business processes and advanced spatial analytics. Currently, the solution is used across Utilities, Healthcare and Manufacturing industries driving critical use cases including Geo-enabled Asset Management, Salesforce planning, Community Programs management, Healthcare Analytics etc. The PartnerEdge program helps to boost digital transformation by aligning with SAP’s platform evolution on spatial domain by taking advantage of HANA Spatial and SAP Geographical Enablement Framework.

As a partner in the SAP® PartnerEdge® Build Partner program, CyberTech will have access to a broader range of software tools and services to build impactful solutions for its clients. SAP® PartnerEdge® Built Partner program offers tools and resources that provide a strong foundation of support and collaboration that fosters unmatched value and mutual business success for customers, partners and SAP.
