

Mr. Wim Elfrink has joined the Board of CyberTech Systems and Software

CyberTech Systems and Software announced the appointment of Mr. Wim Elfrink as Non-Executive and Non-Independent director, with effect from February 21, 2017. Mr. Wim is also the Chairman of CyberTech's advisory Board.

Mr. Elfrink is the Founder and President of WPE Ventures Digitized Solutions - which focuses on security and digitization solutions and Internet of Things (IoT) technology to drive transformational business outcomes. He is an investor, advisor, and consultant in early-stage, emerging and growth companies that are enabling the digitization of society. Prior to this, he was Cisco's Executive Vice President of Industry Solutions and Chief Globalization Officer. He was instrumental in transforming Cisco Bangalore into the second world headquarters. In 2009, Daily News & Analysis, a leading Indian newspaper, named Elfrink one of Bangalore's 50 Most Influential People. During his 18-year tenure at Cisco he handled a broad horizon of responsibilities as an Executive Officer and a member of Cisco's Operating Committee.

Wim also worked as an advisor to a number of Smart-City initiatives worldwide, the most recent one being Dubai's Smart City Development. Wim is a trustee of the New City Foundation and one of the most sought after advisors for start-ups in the field of IoT and Digitization. In 2013, he received the Ambassador C. Howard Wilkins, Jr. Award from the Netherlands-America Foundation.
